

I've been working with the development team at ForaSoft for over a year now and I have been satisfied with their work. Their rates are affordable and their schedules are reasonably timely. Their PMs communicated very well. They are very English proficient and very understanding of complex ideas being pitched. I have not had any major financial or schedule-related disputes, as they are a very fair business. They don't want to lose your business and want to see you succeed because, frankly, everyone's business grows when everyone succeeds. I highly recommend this company to bootstrapped business owners looking for mobile phone development.

Regards,
